

# Growth to Goal Model

## ASSESSMENT

Identifying the gap between your business's current and potential valuation, your goals, and your success measures.

## PEOPLE & PROCESS

Mapping the right people to the right roles, evaluating your systems and processes, and identifying management coaching opportunities.

## STRATEGY

Aligning your mission and values with your strategic plan, determining the viability of your plan, then finding and securing the funds needed to achieve your goals.

## IMPLEMENTATION

Support and training through the implementation of your new team structure, processes, and initiatives designed to hit key milestones.

## RESULTS

Monitoring against your KPIs, rapidly adapting and adjusting. This is a critical stage where a decision is made to move forward or pivot.

## REWARD

Realizing increased enterprise value and ability to move toward continuous improvement and growth, succession or sale pending.
